## Profile

Junior web developer with a background in sales. Utilizing strategies and skills from sales to assist in web development, such as detail-oriented, patience, diligence, and ability to multitask.

## Employment History

### Sales Associate, T-Mobile, Chicago, IL

2018 – 2019

- Served customers by helping them select products.
- Drove sales through the engagement of customers, suggestive selling, and product knowledge sharing.
- Greeted and received customers in a welcoming manner.
- Documented sales by creating or updating customer profile records.
- Assisted with inventory, including receiving and stocking merchandise.

### Assistant Manager, Dunkin' Donuts, Chicago, IL

2016 – 2018

- Maintained and clean organized store.
- Assisted customers with purchases.
- Operated a POS machine and balanced drawers at the end of the shift.
- Made sure every employee was completing their assigned tasks for the day.
- Took customer complaints and refunds and processed them accordingly.

## Education

### Fullstack Web Development, Fullstack Academy via UIC, Chicago, IL

JUNE 2022 – AUGUST 2022

- Participated in a Full-Time immersive 12-week full-stack development program.
- Learned frontend and backend development with specialization in Javascript, Node.js, Express, PostgreSQL, React, and Axios.
- Developed multiple web applications individually and as a team in a limited timeframe.

### A.S Sociology/Social Work, Triton College, River Grove, IL

2019 – 2021

Graduated on the Presidents list with a GPA of 3.7

## Projects

### *Fitness Tracker* - <https://fluffy-fox-3f6929.netlify.app>

A fitness tracking website allowing users to both create, search, and track fitness routines

- Features registration, password hashing for security
- Created own back-end database to store user activities and exercises
- Dynamically updates without a refresh for smooth UX

**Tech stack:** HTML, CSS, JavaScript, React, Node.js, PostgreSQL, Express
